SINCE 2010
VEER INDUSTRIES

Getting a safe laboratory with innovative design should be accessible to any company or organization, in terms of budget, product adaptability, right design & delivery time. That is where we focus while designing, engineering & manufacturing new products. Veer aims to be one of the best innovative Indian laboratory manufacturers operating worldwide.

A laboratory island table is a central, multifunctional workbench in a lab, designed for collaborative scientific work with easy access from all sides.

SINCE 2010

VEER INDUSTRIES

Wall table is designed to provide a stable and organized area for scientific experiments, research, and other tasks. These tables are typically equipped with utilities such as gas, water, and electricity connections, and often include reagents rack, storage compartments or shelves for equipment and supplies

SHELVING

SAFETY LOCK & HANDLE

Chain driven with mechanical gear reduction, making operation simple and light. Can be hidden with Panels as seen here.

GUIDE RAIL

The tracks are not fixed to the existing floor, the entire mobile system can be easily relocated.

FRONT PANEL

Shelving System Verses Filing Cabinets

As you can see by the illustration that you can achieve an equal amount of filing space with one double sided bay of shelving than in five traditional filing cabinets.

1 double sided bay	= 12 metres of linear filing	Foot print = 0.7M ²
5 filing cabinets	= 12 metres of linear filing	Foot print = 1.4M ²

A completely freestanding mobile shelving system, no drilling, no fixing down, no messy ground or civil works. It will not damage or disturb your carpet or floor covering in any way.

- Saves Money
